

D811 CombiDetacher

The new CombiDetacher is a slim line unit, designed to detach hard tags manufactured by MW and Alpha as well as standard magnetic release hard tags. The 3-in-1 design reduces clutter at the till point and is ideal for retailers with a mixed estate of EAS safers and / or alarming tags such as supermarkets and electrical outlets.

- Three detachers combined into one unit
- Strong Modular construction
- Compact and aesthetic design for use on all checkouts
