

# Self Seal Strip AM

The Self Seal Strip provides a one-piece closure device to simultaneously seal and protect the contents of small packaged items. Part of the Self Seal range that has protected more than 1 billion products within UK retail over the past 10 years, the Self Seal Strip has been designed for smaller items such as Razor Blades, Batteries, cosmetics and packaged underwear. Ideal for application at source or in-store, the Self Seal Strip provides a robust security solution against theft whilst allowing product to be deactivated at the checkout or through Self Scan Deactivation technology.
